

*Want to learn the freestyle tricks and moves that will make your day on the hill a blast?*

Learn to Freeride has created a fun mix of today's technology with your favorite sport. Volume 1 – Flatland, Rails, and Jibbing is the premiere Interactive CD-ROM for superior snowboard trick instruction. This kind of cool interaction is not available in a DVD format.

- Over 270 video clips, 15 trick categories, and thousands of combinations at your disposal
- Use controls like play, pause, frame by frame, and slow-motion to get in-depth looks
- Website style navigation at your own speed and in your own style
- Search for mountain lingo, trick definitions, and tons of extra features
- Check out the Classic, Retro, and Punk Skins
- Easily customize the music playlist by adding your own tunes
- Master beginner to intermediate freestyle moves
- Explore for hours at home, school, work, or on the way to the mountains
